### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Claim 1 was allowed because the prior art of record does not teach or render obvious the total method claimed, including the steps of opening said temporary set supporting system while continuing to grip said first end of said set of print media sheets, and dropping said first end of said set of print media sheets from said temporary set supporting system onto said multiple sets stacking system while continuing to grip said second and opposite end of said set of print media sheets.

Claim 6 was allowed because the prior art of record does not teach or render obvious the total system claimed, including means for gripping a first end of said set of print media sheets on said set supporting system, means for gripping said second and opposite end of said set of print media sheets, and means for subsequently dropping said first end of said set of print media sheets onto said multiple sets stacking system while continuing to grip said second and opposite end of said set of print media sheets.

Claim 10 was allowed because the prior art of record does not teach or render obvious the total system claimed, including a first clamping system actuatable to clamp a first end of said set of plural print media sheets on said temporary set supporting system, a second clamping system for clamping said second and opposite end of said set of plural print media sheets, and said first clamping system being actuatable to release said first end of said set of plural print media sheets to drop said first end of said set of plural print media sheets onto said multiple sets stacking system while said second clamping system is clamping said second end of said set of plural print media sheets.
